Mother's Day is around the corner!

Mother's Day was the brain child of Ann Jarvis who campaigned to make Mother's Day an official holiday celebrating mothers and motherhood. Since Congress recognized the holiday in 1914, many of us spend time on this day honoring our mothers with telephone calls, letters, cards, gifts, thoughts and prayers.

If you do choose to send Mom a gift this year, we hope that you will find the perfect item to celebrate the unique and fabulous woman that she is. Here's to all of the amazing mothers out there!

(Consider the gift of tea! Please enjoy the **Chai, Baby!** discount listed to the left!)

Spring Allergies Got You Down?

Drink some Hot Tea!

According to writer Elaine Magee, research suggests that eating certain foods can provide relief from those terrible allergy symptoms.

Not surprisingly, Magee's 7-day menu of ideal foods features hot tea. Not only does this hot liquid soothe the throat and ease congestion, but its high antioxidant content eases the primary symptom of allergies: inflammation within the body. Moreover, the caffeine from tea acts like a natural antihistamine.

Interestingly, hot spices also have beneficial effects. To help you through the season, may we suggest **Chai, Baby!**'s gently-balanced, spiced [Masala Chai](#).

Always remember -- you deserve *extraordinary* tea.
Sip in style, baby!

Sincerely,

Chai, Baby!
